"Air Sports Band"

Dear John,

I would be very grateful if you could find the time to send me any documentation on C.A.A. activities with reference to the proposed "Air Sports Band" on 137–138 MHz FM.

I represent the Swedish Paragliding Association and Fenix, one of the biggest clubs in Sweden. We are trying to bring about permits for radio operation on the 2-meter band, and any sign of European Agencies working in the same direktion will be of great help.

Please send to my business fax +46 8 642 66 54.

I will, if you are interested, keep you informed of developments in Sweden in this matter.

Best regards

Björn Hårdstedt
